

## Letter S

We note that this letter, at the beginning of a word, has often an adversative meaning. So, for example, when the word “*monté*” can mean “*to assemble*”, the word “*smonté*” means “*to disassemble*”. So this letter can also be an adversative prefix, more or less as the English prefixes “*dis*” and “*dés*” are. Then sometimes the initial “*s*” is a pleonastic addition, as in the term “*scriassé*” = “*to shout*” that can also be “*criassé*”. These are the reasons that produce the letter “*s*” to be the major letter in the vocabulary as number of words (together with the “*a*”).

- s** - twenty-first letter of the alphabet and n. f. (pr. \ s<sup>é</sup> \ ) - **s**. This letter sounds according to the rules shown in the “*phonology*” part.
- s...** - prefix. (pr. \ s<sup>é</sup> \ ) - **dis...** Adversative prefix for quite a lot of words starting with this letter.
